Dear Doug,

**Product approval: 150mm "Waveform" Profile Wall Smooth Bore Conduit**

I refer to your application ID no 1028 and am pleased to advise that the following products have been approved for use in the Integral Energy Network.

Product approval no.	Product reference (supplier/manufacturer catalogue no.)	Approval date	Item description
AN0074A	150mm	20/02/09	150mm "Waveform" Profile Wall smoothbore HD conduit

**This approval is subject to the following conditions:**

- You are required to ensure Accredited Service Providers who intend to use/install the product are given adequate training and/or familiarisation with this product.
- Records of all training and familiarisation sessions should be kept and should include:
  - (a) names of the trainers;
  - (b) the date of the training;
  - (c) a list of the names of attendees;
  - (d) the type of training/familiarisation received; and,
  - (e) an acknowledgment by the attendees that they have received and understood the training.
- If any changes or modifications are made to the product, or to any part of the product, the approval is deemed to be null and void unless prior approval in writing is obtained from Integral Energy for such changes.
- Integral Energy reserves the right to withdraw this approval with immediate effect, in the event of:
  - a) any of the information provided along with the product approval application by the applicant is subsequently found to be incorrect;
  - b) the product fails to satisfactorily perform the intended function and purpose;

Going further for you is what we do

*The power is in your hands*

- c) the product fails prematurely when in service, or in any future testing Integral Energy may wish to carry out;
- d) the product becomes obsolete due to changes to Integral Energy's design standards and practices; or,
- e) training that is to be provided to ASPs to use/install the product is found to be inadequate or unsatisfactory.

Yours sincerely
